BRIGHT

futures, one step at a time

- Fall Semester Required Courses
- AG 1902 Crops Judging Seminar I
  - ID 1103 Electrical Theory
  - ID 1004 Trade Basics
  - WE 1153 Shielded Metal Arc Welding (SMAW)
  - WE 1003 Oxy-Fuel Gas Cutting I
- Spring Semester Required Courses
- AG 1912 Crops Judging Seminar II
  - AG 1904 Crop Science
  - AG 1814 Integrated Pest Management
  - AI 1014 Motors & Control Systems
  - PH 1113 Safety, Health, and Environment

Grain Elevator  
Operations

ISBAVH

Grain elevator operations require different skill sets from electrical to welding to knowledge of motor controllers and automation. Combined with a knowledge of agricultural basics, you can join

**a thriving industry  
with numerous and diverse  
career opportunities**

Our unique program based in Southwest Kansas prepares students for grain elevator operations including maintenance, safety, pest control — and even management skills.

**Earn a certificate or pursue  
an Associate's degree in a  
specialty field.**

# INNOVATIVE

**Heritage and forward motion**

SCCC and SKYLAND GRAIN have teamed up in a win for students and our region. With cooperative roots from 1915, Skyland is headquartered in Ulysses, Kansas, and with Johnson Cooperative Grain Co., ADM Grain Co., Syracuse Cooperative Exchange, and The Cairo Cooperative Equity Exchange formed Skyland Co-op, Inc. in 2017. Skyland operates grain receiving facilities at 71 locations in Kansas, Oklahoma, Colorado, and Texas. With licensed grain storage capacity of over 100 million bushels and three cotton gins, Skyland offers full-service agronomy that provides bulk liquid, dry, and anhydrous ammonia fertilizers, chemicals and seed and custom application. Skyland also keeps customers moving with affordable Premium Roadmaster XL, Premium Ruby Fieldmaster, as well as Premium Cenex Lubricants. The fuel department offers fuel orders, bulk delivery, transport delivery, contracts, and 27 cardtrol locations.
